ABOUT GIGGLECASH

The Meme Coin Kingdom. Powered by Solana. Ruled by You.

GiggleCash ($GIGLCASH) isn't just another meme coin — it's a decentralized, mission-driven meme economy built by holders, for holders. We're here to turn memes into missions and fun into funding for good.

WHAT MAKES GIGGLECASH DIFFERENT?

- 🔥 **65% Burned** — Permanent supply burn at launch for extreme scarcity

- 🔒 **LP Burned** — 120M LP tokens burned forever to eliminate rug risk and ensure full transparency

- 🟩 **100% Fair Launch** — No presale. No VCs. No stealth team bags. All community.

- 📦 **DAO Governance** — Community votes on treasury, roadmap, and Wildlife Fund (Phase 3 – Q4 2025)

- 💡 **Meme Utility** — Staking, tipping, tools, NFT market, + 1% Wildlife Fund (Phase 2 onward)

- 🧾 **Transparency** — Every wallet tracked. Every token accounted for. No rugs.

We don't ask for trust. We post receipts.

WHO CREATED GIGGLECASH?

GiggleCash was created by an anonymous founder — just like many of the most legendary meme coins.

There was:

- ❌ No presale

- ❌ No VC funding

- ❌ No stealth team wallets or private unlocks

It launched as a fair, transparent meme experiment — fueled by purpose, not profit.
Every token, vault, and wallet is tracked live — fully visible on-chain.

WHO RUNS GIGGLECASH NOW?

Post-launch, GiggleCash isn't controlled by any company or founder.
It's ruled by the meme kingdom itself, powered by:

- 👷 Core Contributors — Builders, devs, artists, and meme tool creators

- 🐸 Community Leaders — OG frogs, campaign leads, and raid organizers

- 📦 DAO Voters & MemeRank Holders — Anyone who stakes, memes, or contributes earns a voice

No centralized control. No off-chain decision making.
Everything transparent. Everything accountable.
